

The Community Restorer

Volume 3, July 2008 Newsletter

Greetings!

Contents and Equipment Restoration and Pack-Outs are our focus. Customer Service is our goal!

Processing contents through one of the ultrasonic units

It has been a busy couple of months for everyone in the insurance restoration industry. Our hats are off to all of the hard working adjusters and respected contractors that we have been diligently serving. Many have been overwhelmed with the volume of claims in the area and we are very proud to have become the “go to” for common, unique and problem contents claims.

Remember, often we are the only ray of hope for saving what the customer has worked a lifetime to accumulate.

The AmRestore team is saving so much time and aggravation because of our niche service. Our first and only priority is contents and equipment; we aren't engaged with other aspects of a loss. *Come see the recent additions to our proprietary equipment and the newly expanded 12,500 sq. ft. CARE CENTER!*

At AmRestore, we have a vision of perfection, not just satisfaction. Your customers are cared for and their personal property respected. Imagine having to cope with a traumatic event of a flood or fire while simultaneously attempting to save precious contents and equipment – that's where AmRestore saves the day.

Here's what our customers are saying about us:

“I don't know what I would have done without [AmRestore]. Being a single person, I don't know how I would have gotten through this by myself.” ~Travelers Insured

“Everyone was extremely professional; they handled all of our belongings as if they were their own. Billy and Carol were tremendous!” ~Nationwide Insured

“This was not an easy job! The AmRestore team did a fantastic job! Everyone was so pleasant – your company can be proud of them!” ~Erie Insured

*“Your organization is highly a first class company in every way”
~State Farm Insured*

The AmRestore team pre-cleaning contaminated personal property

Our specialty focus is on the inventory, pack-out and restoration of contents and equipment: electronics, machinery and all categories of personal property. Our state-of-the-art facility and unique combination of equipment and processes gives us the capability to handle residential and large commercial losses. **See all of our services at www.amrestore.com.**
